## To Shake Up The Bartender On Your List

A new cocktail shaker by Metrokane is a clever innovation. It has a flip-top lid that snaps shut for shaking and can easily be opened to pour a drink through a strainer grid. The top screws on so it will not fall off and is easy to remove.

The shaker is also insulated so the outside does not get cold. It's \$29.95 at Sur La Table stores and [surlatable.com](http://surlatable.com).
